

INDEX

VOLUME VIII, Nos. 1—12 (SEPTEMBER, 1957—AUGUST, 1958)

A	PAGE	PAGE
ABNORMALITY, growth and the prediction of -	220	
Abstracts 18, 29, 30, 41, 61, 80, 94, 121, 128, 135, 139, 150, 160, 174, 176, 184, 194, 203, 214, 219, 231, 240, 255, 257, 274, 285, 297, 304, 308, 319, 326, 348, 365, 386, 391		
Acrylic resin implants, self-curing, tissue reaction to -	234	
Aetiology of malocclusion -	42	
Alloy(s), aluminium casting, use of, for constructing denture bases -	382	
— yellow and white gold and cobalt-chromium, a comparison of -	8	
Aluminium casting alloy for constructing denture bases, use of -	382	
Alveolar process, study of growth in height of: O'Meyer's sign -	140	
Amalgam restorations, finishing -	64	
American Dental Society of Europe: Developmental supervision of occlusion, 81; A fundamental approach to the problems of impressions for complete dentures, 162; Practical periodontitis treatment easily applied by the general practitioner, 280; Principles of complete denture prosthesis, 350; Principles of ultrasonic cavity preparation, 122; Provisional coverage and splinting procedures in crown and bridge ceramics and rehabilitation, 198; Silicate cements: How to select and use them, 387; The use of plate appliances in the treatment of periodontal trauma, 12; The use of suggestion and psychosomatics in dentistry, 312		
Anaesthetic agents, xylodase paste and xylotox extra paste, observations on -	204	
Analysis of one hundred cases of dry socket -	275	
ANDERSON, J. N.: The dimensional stability of three silicone-base impression materials -	368	
— — Dimensions of cast palatal and lingual bars -	270	
ANGELMAN, JOSEPH: A new apron spring -	51	
Angle's Class II, division I and Class II, division 2 in identical twins, treatment of -	185	
Animals, laboratory, the periodontal tissues of some	53	
Anterior maxillary teeth, surgical assistance for eruption of four -	28	
Aphthous ulcers, recurrent -	177	
Appliance, edgewise, report on -	86	
Apron spring, a new -	51	
ASTBURY, W. T.: Fundamentals of collagen -	261	
B		
BALLARD, C. F.: The aetiology of malocclusion—an assessment -	42	
BENNETT, D. T., and NICHOLS, P. J. R.: Observations on two anaesthetic agents, xylodase paste and xylotox extra paste -	204	
BLACKMAN, SYDNEY: Radiation hazards in odontostomatology -	209	
— — Radiographic determination of periapical disease -	110	
Bone implant, histology of -	26	
Book Reviews (see Reviews)		
BOUCHER, CARL O.: A fundamental approach to the problems of impressions for complete dentures -	162	
Bridge and crown ceramics and rehabilitation, provisional coverage and splinting procedures in -	198	
BROADWAY, R. T.: Depression of lower incisors	192	
BROWNE, WILLIAM G.: Surgical assistance for the eruption of four anterior maxillary teeth -	28	
British Society of Periodontology, Proceedings of: Programme, 1957-8, 60; Annual clinical meeting, 1957, 19, 57; Calculus and wear in the teeth of sixth century Jutes, 23; A case of periodontosis in a boy aged 6½ years, 58; A chemical change in cervical dentine in periodontal disease, 19; Chrome-cobalt subperiosteal implant, 59; Current trends in periodontal research, 151; Dental health education in Italy, Switzerland, and Germany, 286; Fundamentals of collagen, 261; Heterogenous bone implant, 58; The histology of a bone implant, 26; Homogenous bone implant, 57; A new method for measuring tooth mobility, 329; Osteoplasty, 59; Periodontal splint, 22; The periodontal tissues of some laboratory animals, 53; Practical periodontics, 215; Recurrent aphthous ulcers, 177; Seasonal incidence of acute gingivitis, 23; Some of the less common periodontal lesions, 23; The staple-type of fixed splint, 22		
British Society for the Study of Orthodontics, Transactions of: The aetiology of malocclusion—an assessment, 42; Depression of lower incisors, 192; The eruption of third molars following extraction of second molars, 292; Growth and the prediction of abnormality, 220; An investigation into the effects of pressure on various bony sites in the rabbit, 295; A mobile orthodontic chairside desk, 256; Report on the edgewise appliance, 86; A study of the growth in height of the alveolar process: O'Meyer's sign, 140; The treatment of Angle's Class II, division I and Class II, division 2 in identical twins, 185; Treatment of the unerupted maxillary canine, 245; The use of contoured canine orthodontic bands, 191
